

Take your business everywhere. Manage calls from anywhere.

With the new FluentStream Admin app, you can truly harness the power of your phone system and fully manage your business from anywhere.

- **Manage the system from everywhere.** Airport, taxi, coffee shop? No problem! With FluentStream Admin, the world is your office.
- **Access from anywhere.** Stay as mobile as the workforce you support; access the network without the need of a computer.

Key Feature Highlights:

Call Routing

Set time conditions and applications that personalize the calling experience.

Time Conditions

Set and modify time-based events to ensure your business phone system works exactly as you want it to.

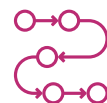

Notification Workflows

Ensure your team gets notified for key events like calls exiting from queues, calls to 911, SMS messages received and more.

User Management

Add, modify or delete users, right from your phone.

Managed Routes

Move your call routes from Day to Night mode to modify call routing.
